Senate Democrats Pass Rule for Consideration of Bill Despite Neutrality Dangers.

SHIP BILL SIDETRACKED

WASHINGTON, Sept. 26 .- The House by vote of 61 to 44 to-day passed the rule providing for the consideration of the Philippine independence bill, allowing eight hours for general debate and providing that the bill shall be considered with unlimited privilege of amendment.

This is taken to mean that the bill providing for the creation of a Federal corporation to buy and operate ships and carrying a bond authorization of \$30,000, 000 will be shelved. Both bills are backed by the Administration, but the shipping bill was regarded as an emercy measure, whereas the Philippine is part of the general legislative programme of the Democrats.

Republicans took the position in the de-bate that to force a discussion of the highly involved international question of Philippine independence at this critical juncture would lay an embargo upon the full and free discussion of the measure and the President's own utterances to the American people regarding the matter of international discussion was cited as evidence that full debate would be im-possible.

Representative Fess, speaking against the rule, when urged by his colleague Representative Gordon, Democrat, to explain why he could not freely discuss the seneral proposition of Japanese interest in the ownership of the Philippines and possible German interest in the same di-
